POLICY:

The Carolinas Society for Healthcare Education and Training (CSHET) will have vendors (commercial and/or healthcare education-related products) and program sponsorship from other healthcare organizations.

PROCEDURE:

The Program Planning chair and/or designee will determine the eligibility of sponsorship

Healthcare organizations may sponsor a break at the annual conference for a fee. The organization's name will appear on a flier in the participant's handouts and announced at the beginning of the conference.

Our inclusion of vendors will comply with the accrediting bodies (ANA) guidelines / provisions for continuing education credit.

Vendors of healthcare education related products may provide exhibits of their products at the annual conference for a fee. They may also sponsor a break or donate door prizes for the conference. A list of vendors will be included on a flier in the participant's handouts and introduced at the beginning of the conference. Vendors will have time to discuss their product during breaks on Wednesday afternoon and all day Thursday.

Commercial vendors, such as clothing, jewelry, etc, may provide exhibits and sale of products at the annual conference for a fee or a percentage of total sales. When at all possible these will be shown at the reception on Wednesday evening and on Friday, so not to interfere with healthcare professional vendors.

The fees are subject to change from year to year.
